SILVER'S ADVANCE CERTAIN.

Government Needs Relied Upon to Send Metal to 70c an Ounce.

The demand for silver coins of small denominations will compel the director of the mint to commence the purchase of silver again, and the congress is to be asked to give his sanction. By the repeal of the purchasing clause of the Sherman act, relating to the coinage of silver, the director of the mint is given discretionary powers in the buying of silver, we believe; but permission is to be asked of the congress to do so, nevertheless, says Ores and Metals. The demand that will be created by such a step will be in all probability, cause for a still further advance in the price of the white metal. The call upon the department for fractional silver while hardly noticeable from one point, in the aggregate forms a tremendous total, and that it will stimulate the silver mining industry to greater effort there is no doubt. Steady purchases on the part of the government and the continued demand from the Orient will create a market that will revive a number of old-time camps of the West, and 70-cent silver would not be a venture some prediction.

The steady advances in the price of silver during the past few years has undoubtedly been due to the influence of the American Smelting & Refining Company in controlling the market. If this metal, in doing so the price paid for the white metal has steadily advanced to its present figure, and to a point where it has enabled a great number of mines on which operations had ceased to resume work. That the price will steadily advance during the next few years there is little doubt, though, in the very nature of things, it cannot reach the figures that obtained prior to 1893.

A. C. WINTERS, SOUTHERN TOWNS.

Distances from One Camp to Another and How to reach Them.

Most people have an indirect knowledge of the location of the various newly established towns in the Southern Nevada gold districts few of them have any definite intelligent idea as to where each town actually is and the relative direction and distance of one from another. It will therefore be of interest to many and valuable to some to have them set forth. The following carefully prepared information regarding these localities, the names of which are seen and heard of every day more and more as time passes, but just where they are situated in the broad expanse of southern country few persons could tell, even among some of those interested more or less in mining affairs.

Goldfield is 28 miles south of Tonopah; 16 miles south of Goldfield; 3 Tank Springs; 29 miles south brings one to Summerville, the new strike, which is 3 miles west of Throp's Mill, where is located the Nevada-Goldfield Mining Company's property. 25 miles south from Summerville is Muddy Spring, 8 miles south from Muddy is Old Bullfrog or Amagoza (now is settled) where the Original Bullfrog district, now about six months old. Three-quarters of a mile south is the new town of Bullfrog, formerly called Bonanza. From Rhyolite to Beatty, a town of 500 people, is 4 miles north east, passing the rich Montgomery Edwards mine. Going further south from Beatty 4 miles, one reaches Gold Centre with its 250 people. One hundred and ten miles southeast from Bullfrog are located the rich strikes of Los Vegas, reached by some via the Clark railroad and stage.

Once Bitten, Twice Shy.

Once a man gets bitten he's always shy of the biter. If you've been bit in the matter of clothes, it's a wise idea to give a wide berth to the one who bit you! Try people with a reputation for making and keeping friends. If you have been disappointed in your garments, let the International Tailoring Co. of New York, Chicago and San Francisco, apply the antidote of good workmanship and guaranteed satisfaction. One suit from them will make you feel kindly towards all the world in general, and put you right in the EYES of your friends. Looks, you know, are everything.

See our new Fall and Winter samples and let us take your measure.

We Guarantee to Please You.
